

## NEPOTISM TO BE ELIMINATED IN ARIZONA; BILL MOST DRASTIC

No One Is Eligible to Appointment to Office if He Has Relative With Appointive Power in Any Office.

### LEGISLATURE GETS PAY AFTER THREE WEEKS

Appropriations for Three District Fairs Are Having Hard Sledding, but May Be Put Across.

PHOENIX, Jan. 30.—If the Roberts bill against the appointment of relatives to office becomes a law, as it was almost unanimously amended by the senate today, citizens of Arizona who have relatives in office, either elective or appointive, will be barred from appointment to public positions. The bill originally prohibited the appointment of relatives within the third degree of consanguinity or the second degree of affinity. But the committee of the whole of the senate took notice of the fact that many officeholders at present have exchanged courtesies in the appointment of their relatives to clerkships. The amendment provides in addition that one is not eligible to appointment to any office in the state, county or municipality if he has a relative in office in either the state, county or municipality who enjoys the appointive power. A list of the offices to be brought under the rule includes all the state officials, commissions, justices of the supreme court, all county officials and all city officials. School trustees alone are exempt. This amendment was adopted by the vote of all the senators but two. The bill would become operative January 1, 1919.

**Has First Pay Day.**  
The legislature had its first pay day in the three weeks of the session. Following the approval by Governor Campbell of house bill No. 1, making appropriation for the current and contingent expenses of the legislature, the state auditor visited both chambers with warrants for the members and attaches.

The house appropriations committee expressed its disapproval of the bills for the southern and northern Arizona state fairs. There is yet a bill for the eastern Arizona fair, which will meet with the same reception. But it is not sure that all of these bills will not be finally passed. The delegations from the counties where they are proposed to be held, working together, with what outside aid they could enlist, would probably control in each house. The Maricopa delegation, it is thought, could be forced into a combine in behalf of the bills on pain of losing a generous appropriation for the main state fair.

**Wage Bill Is Referred.**  
The labor committee, to which the McKay minimum wage for women bill was referred with instructions to prepare a substitute, this morning asked for the assistance of the judiciary committee in the preparation of the measure.

The house committee of the whole, after an all-day session, recommended the passage of the following bills:

Amending the law with reference to the creation of high school districts.

Amending the law so as to permit farmers to market the produce of their farms, and to butcher for sale a certain number of cattle and hogs a year.

Amending the law relating to teachers' pensions so that an active service

When you buy French Market Coffee—the Old Secret Blend—a double guarantee goes with it—your grocer's and ours. That means you are assured fullest value before you buy.

There's a hundred year old secret back of it—the secret of a unique blend of famous coffees from the best coffee growing countries in the world. More than this, there is also a secret grinding and roasting process—all of which brings to your table a guaranteed coffee that is simply superb!

No other coffee can ever be like French Market. Hundreds have tried to imitate it—but failed. It is the envy, admiration, joy and despair of the coffee world.

A hundred years ago French Market Coffee was obtainable only at the Old French Market, New Orleans. Today it is sold everywhere to meet the big demand resulting from a century of such coffee goodness.

Send 10c for 12 cup sample and booklet of the interesting story of Old French Market. We will also send names of grocers in your town who sell French Market Coffee.

New Orleans Coffee Company, Ltd.  
New Orleans, La.

## SERBIA SENDS MINISTER TO THE UNITED STATES

L. MIHAILOVITCH

L. Mihailovitch, who has just arrived in Washington as minister to the United States, has presented his credentials to Secretary Lansing. The only other Balkan state which sends a minister here is Bulgaria, whose minister has been here about two years.

of thirty instead of twenty-five years would be required.

**New Bills.**  
New bills were introduced as follows:

In the senate:  
By Rutherford of Yavapai, requiring the mailing of sample ballots to every voter, ten days before an election.

By Whipple of Greenlee, prohibiting the issuance of checks or other evidence of indebtedness, payable otherwise than in cash at their full cash value. This is designed to correct the practice of some mining and other corporations which issue checks payable in merchandise at the company stores.

By Mahoney of Mohave, permitting the admission to county hospitals of persons other than indigents.

By Campbell of Coconino, amending the street improvement act by shortening the time of advertisement of notices of improvement.

House bills were:  
By Coffey of Greenlee, for the protection of deer, antelope, various game birds and the road runner.

By Fairer of Gila, amending the law with reference to warehouse receipts.

## PERFORM SUCCESSFUL BLOOD TRANSFUSION ON THE GOVERNOR

SANTA FE, Jan. 30.—Governor de Baca was given a transfusion of blood this morning by Dr. J. A. Massey, his physician. The operation was entirely successful and the governor tonight was reported as being in excellent spirits and greatly improved.

Representative T. G. Upton of Luna county, one of the finest physical specimens in the legislature, furnished the blood which was transfused into the governor's veins.

## CLOVIS METHODISTS BUILD NEW CHURCH

CLOVIS, N. M., Jan. 30.—The Methodist congregation of Clovis is actively engaged in steps preliminary to replacing its present frame structure with a modern building commensurate with the development of the city. The structure in present use by the Methodists has been more than outgrown and is at the present time a decided handicap to the development of the Sunday school and Epworth league.

The present plan calls for a brick building with concrete basement, on the site of the structure now in use. The large auditorium and Sunday school rooms are planned for the main floor, with Epworth league room, kitchen, committee rooms and other rooms in the basement. The building as planned would cost about \$15,000.

A part of the expense of building the church will be met by the Church Extension board. The biggest share of the necessary amount, however, will be contributed by Clovis people who are anxious to give Clovis a church auditorium suitable to the size of their rapidly growing city.

## SUFFRAGETTES VAINLY CALL ON PREMIER

LONDON, Jan. 30.—A delegation of suffragettes camped out on the steps of Premier Lloyd-George's official residence in Downing street this morning, declaring they would remain there until they received the premier's reply to a request that he receive the delegation.

As the weather grew colder and windier, they accepted an invitation extended by the premier's secretary to wait inside the house. The premier finally sent his reply, stating that he was not at present prepared to receive a deputation on the subject of woman suffrage. But, the reply added, when the question of the franchise is being dealt with he will not doubt receive a deputation on this subject and until then, will be communicated with no further.

## WOMEN OBJECT TO SUBSTITUTE DRY RESOLUTION

Christian Temperance Union Wants Importation and Gift Clauses Made More Strict in Prohibition Bill.

SPECIAL CORRESPONDENCE TO MORNING JOURNAL.  
SANTA FE, Jan. 30.—Miss Harriet L. Henderson, president of the New Mexico Christian Temperance union, has sent the following announcement on the prohibition situation over the state in the interests of a "bone dry" prohibition law:

"The committee substitute for joint resolution No. 2, introduced by Senator McDonald, providing for a prohibition amendment to the constitution, has been reported by the committee. This bill permits the unlimited importation of liquors of all kinds for personal use, which of course affords the bootlegger and lawbreaker ample opportunity to import under this guise."

"It has an additional weak point, or 'joker,' that the McDonald bill did not have, viz: While prohibiting the manufacture for sale, barter or gift, the importation for sale, barter or gift, it simply forbids the sale, barter or exchange of liquors already in the state, and leaves the GIFT of any liquors in possession of individuals or associations or corporations, lawful."

**Soft Drink Bars.**  
"The bill provides for the closing of saloons in October, 1918, a month previous to the general elections. There is nothing to prevent saloons closing with immense stocks of goods on hand, which can legally be given away to voters ad libitum, and illicitly peddled in the same saloons then run under the name of 'soft drink' bars."

"Other states have had to struggle with these conditions before adequate laws were provided for stopping it, but adequate laws for the abatement of these unbearable conditions have been passed, and it seems absolutely unreasonable and untenable for any state to permit men to import liquor into the state, and then to permit the people to want these conditions when they can, by the correct framing of a bill, avoid them. Leaving loopholes for the exploitation of the state by liquor manufacturers through their agents, and through men who always will seek a livelihood in illicit vending, regardless of penalties, is an expensive business for the taxpayer. The example of other states have shown that the whole police force of the state cannot cope with the evil of bootlegging, and the courts are continually grinding on a never-ending grist of such cases."

"It seems folly for any state to deliberately invite these conditions, when by the proper framing of an amendment it can just as well avoid them, and it also seems unfair to make the excuse for so doing, that the people want a state of chaos and confusion instead of properly safeguarding their children. It seems reasonable to suppose that if the people want prohibition at all, it is because they want to put a stop to drinking, and to the opportunity for drinking."

**Personal Use Anomaly.**  
"To permit importation of intoxicants for 'personal use' is a monstrous anomaly. The whole aim and effort of the prohibition movement now sweeping over the world is to stop the 'personal use' of the most insidious and deadly poison ever invented by the enemy of man."

"The 'personal use' loophole is left that some may indulge their appetites and at the same time try to prevent others from doing so, but it cannot be done, what can be obtained by one can be obtained by all others who are able to pay for a shipment. Is there any man 'with soul so dead' that he would not deny himself the indulgence of a dangerous poison for the sake of saving a state untold crime, misery, and want to his young men, his women and little children?"

"The 'personal use' loophole is left that some may indulge their appetites and at the same time try to prevent others from doing so, but it cannot be done, what can be obtained by one can be obtained by all others who are able to pay for a shipment. Is there any man 'with soul so dead' that he would not deny himself the indulgence of a dangerous poison for the sake of saving a state untold crime, misery, and want to his young men, his women and little children?"

**Dunlavy Bill "Bone Dry."**  
"Senate joint resolution No. 4, introduced by Senator Dunlavy and Senator Kerr, is what is called a 'bone dry' bill, and the only bill so far introduced that can be offered the people as a measure complying with the promise to give the people a prohibition bill to be voted upon by them. A bill that does not and cannot protect the people against the depredations of a traffic in its last struggle to unload its accumulated products before it is finally crushed out, and that wants to wring every dollar possible out of the people, is not a bill worth considering, and surely is not what is expected by a long suffering people."

## FRANCES INGRAM TO APPEAR IN THIS CITY NEXT MONDAY NIGHT

An opportunity to hear one of the most glorious voices of a decade will be given music lovers when Frances Ingram, the contralto sensation of the past season, will appear at the auditorium next Monday. Miss Ingram possesses all the attributes of a great singer, including a great voice, youthful enthusiasm, brains and that elusive thing known as personality. Nearly every review of Miss Ingram's concerts during the season has contained some allusion to her remarkable personality. This trait is shown in everything that the young artist undertakes. Her programs are built with an evident objective point that brings a real climax at the last number. Her singing demonstrates the fact that she lives the thought of every song and is, therefore, enabled to give a most vivid interpretation. In fact, Miss Ingram possesses all the requisites of the unusual artist and it is a matter of congratulation that Albuquerque is to hear her. The sale of seats opens Friday morning at Matson's.

Want a high grade employee? Or the better grade of service? Make use of the want columns of the Journal.

## FLIPS FROM THE FILLUMS

AT THE LYRIC THEATER.

Margaretta Fischer in "The Pearl of Paradise," a desert island drama with a strong Robert Louis Stevenson flavor and some of the most wonderful scenery ever put on a screen, is apparently to be more popular than any of her predecessors who have essayed the role of "the castaway." It will be seen at the Lyric theater today.

Yulita, the Spanish-American beauty, has grown up like a wild flower in the tropic isle to which her father, Manuel Gomez, has taken his bride, after a fight in which the mother of Yulita was rescued from a brutal husband, afterwards marrying her rescuer.

This attraction is the first of many special features that will be shown at the Lyric every day in the week.

**A STAR FIND.**

Not so many months ago a certain critic watched the first showing of a comparatively obscure photodrama, and he was considerably impressed by the work of one of the girls—a barmaid, to be exact—who played a decidedly minor part in a play of little consequence. He returned to his office, described the picture briefly to his readers, and then devoted his "story" to the really capable dramatic qualities displayed by an "extra" girl.

One who read the story was a producer. He sent a representative to investigate. The critic's judgment was justified, and Francella Billington forthwith entered the ranks of stardom. Since then her career has been one of continuous success. She has steadily gone upward in the firmament of filmdom, and now she enjoys the distinction of playing opposite to William Russell in feature productions of the American Film company.

Margaretta Fischer in "The Pearl of Paradise."

market was located, and the wonderful and life-like portrayal of Lincoln and his election to the presidency. In filming "The Crisis" everything possible was done to make it historically perfect.

**TILBY IN FILMS.**  
Our good friend "Svengali" of du Maurier fame is to be seen on the screen. "Tilby," with Clara Kimball Young as Tilby, has just been released by the World Film company in New York, and judging from the press agent's sheet, is making a big hit there. Wilton Lackaye plays the part of Svengali.

The story is one of the famous Latin quartet in Paris and concerns an artist, Little Billee, one of the "Three Musketeers of the Brush," and Tilby, an artist's model. Tilby gets into the power of Svengali, an oriental hypnotist, who spirits her away from the man she is to marry, and by his evil powers of hypnotism makes her a living for him by singing, her voice a concoction of his hypnotism. Little Billee and his two friends try to rescue her from Svengali's power, and in the attempt Billee dies of shock. Whereupon the power of singing leaves Tilby and she is happy with Billee until she looks at the picture of the hypnotist. Then the old power returns and after an attempt to sing again she dies.

**CRISIS TO THE ARCHIVES.**  
Inspired by the remarkable success and foresight of the French govern-

**To Work for Raise of Embargo.**  
El Paso, Tex., Jan. 30.—En route to New York to urge the lifting of the embargo on arms and ammunition to Mexican territory held by Carranza troops, a delegate from General Carranza said to have been received from the first chief. He registered at a local hotel under the name of E. Castanos, and told an American friend he would work to have the embargo lifted at once. He has been here three days in conferences with Carranza officials.

## BELGIANS STILL ARE CARRIED TO GERMAN SHOPS

Workmen Actively Employed at Home Are Seized by Kaiser's Soldiers; 350 Men Leave Brussels Daily.

THE HAGUE, Jan. 30.—The deportations of Belgian workmen continue, but at a slightly lower rate than previously, according to information from an unquestionable source. It is said that the deportations from Brussels now are being made at the rate of about 350 men daily. Many of these men, it is alleged, are not ill-skilled workmen who have been engaged for at least a part of their time in the trade.

In some provinces the Belgians, it is said, are adopting methods of passive resistance in efforts to escape deportation. The resistance takes the form of failing to appear at the appointed place for examination. Out of 1,700 men called in five communes near Malines, not more than half presented themselves. Thereupon, the German military authorities arrested three prominent men in each commune, holding them as hostages until the appearance of the absentees, who, in the meantime were hunted by soldiers. In Brussels, many of the men summoned who failed to appear now are in hiding.

About 1,000 Belgians connected with the work of the American relief commission have been deported to Germany over the strong protest of the commission. As a result of vigorous protests, however, a few of these men have been returned to their homes and no others are being taken.

**AT THE THEATERS TODAY.**  
"B" Theater—"Diamond From the Sky," in two parts, in connection with the regular program of four reels; "The Gambler's Lost Love," two reels, and two comedies of one reel each.

Crystal Theater—Dark.

Lyric Theater—Margaretta Fischer in "The Pearl of Paradise," five reels, and a one-reel comedy.

Pastime Theater—Repeating "The Honorable Alky," in which Charles Ray, Margery Wilson and Margaret Thompson take the leading parts.

ment in preserving for posterity films of historical importance. H. A. Sherman, president of the Sherman-Elliott company, has offered to Secretary of War Baker a print of William N. Selig's "The Crisis," to be preserved in the vaults of the war department at Washington.

The scenes in "The Crisis" were filmed on historic ground. Old Fort Sumter is shown; scenes of the Lincoln-Douglas debates; the political atmosphere of civil war days; the battleground of Vicksburg; the old courthouse at St. Louis, where the slavery

**FIGHT ON GRAYSON'S NOMINATION BEGINS**  
WASHINGTON, Jan. 30.—The senate and naval committee ordered a favorable report today on the nomination of Dr. Cary T. Grayson, President Wilson's naval aide and personal physician, to be medical director in the navy and a rear admiral. The republicans of the committee opposed it, Senators Lodge and Poinsett leading the opposition. A fight on the floor was indicated.

Dr. Grayson was called before the committee at the request of Senator Poinsett, who questioned him as to his experience. He was brought out that in thirteen years' naval service, Dr. Grayson has had but two years' active sea service, while there are men with forty years' service, over half of which was spent at sea, who were passed over in his favor.

Dr. Grayson was asked particularly as to an examination he took on the day preceding his nomination to develop his qualifications for the new post. He said he had submitted a thesis but had not been called upon to answer any questions. He also said he had withdrawn from two previous examinations.

**Steamer Argo Blown Up.**  
London, Jan. 30.—Lloyd's announces the Norwegian steamer Argo, 1,281 tons, has been blown up and that nine of her crew are reported lost. The Norwegian steamer Fulton, 1,620 tons, has also been sunk.

**Two to Hang in Louisiana.**  
Minden, La., Jan. 30.—Stester Tyson, Mark Peters, Larkin Stewart and Anderson Heard, negroes, charged with killing five members of the family of John Nelson Reeves, Christ-

## THEY WERE RUNDOWN

How often we hear it said of a man or woman that "they were rundown in health" which accounts for their present sickness. For that reason it is important that when you find you tire easily, when your nerves are troublesome or your work is irksome, you should strengthen your system immediately with the blood-enriching, tissue-building food in Scott's Emulsion which contains pure Norwegian cod liver oil and is free from alcohol.

Scott & Bowne, Bloomfield, N. J.

## Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but it is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

## KEEP A JAR OF MUSTEROLE HANDY

It Quickly Loosens Up Coughs and Colds in Throat or Chest

Just a little Musterole rubbed on your sore, tight chest before you go to bed will loosen up congestion and break up most severe colds and coughs.

Musterole is a clean white ointment made with oil of mustard. Simply rub it on. No plaster necessary. Better than mustard plaster and does not blister.

Thousands who use Musterole will tell what relief it gives from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet and colds (it often prevents pneumonia).

mas eve, last, were found guilty by a jury this morning. The verdict against Tyson and Peters carried with it the death penalty. Stewart and Heard were found guilty without capital punishment being imposed.

## Nuxated Iron to Make New Age of Beautiful Women and Vigorous Iron Men

Say Physicians—Quickly Puts Roses Into the Cheeks of Women and Most Astonishing Youthful Power Into the Veins of Men—It Often Increases the Strength and Endurance of Delicate, Nervous "Run-Down" Folks 200 Per Cent. in Two Weeks' Time.

A Wonderful Discovery Which Promises to Mark a New Era in Medical Science

NEW YORK, N. Y.—Since the remarkable discovery of organic iron, Nuxated Iron, or "Per Nuxate," as the French call it, has taken the country by storm. It is conservatively estimated that over three million people annually are taking it in one form or another. Most astonishing results are reported from its use by both physicians and laymen. So much so that doctors predict that we shall soon have a new age of far more beautiful, rosy-cheeked women and vigorous iron men.

Dr. King, a New York physician and author, when interviewed on the subject, said: "There can be no vigorous iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale; the flesh flabby. The muscles lack tone; the brain fails and the memory fails and often falling, degenerated, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

"In the most common foods of America, the starches, sugars, bread, apples, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degenerated cornmeal, no longer is iron to be found. Refined processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cooking, by throwing down the drain the water in which our vegetables are cooked, are responsible for another grave iron loss."

"Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Dr. Sauer, who has studied abroad in great European medical institutions, said: "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions, and take Nuxated Iron, I am convinced that the lives of thousands of persons might be saved."

saved you now die every year from pleurisy, grippe, consumption, kidney, liver, heart trouble, etc. The real and true cause, which started their disease was nothing more or less than a weakened condition brought on by lack of iron in the blood.

"Not long ago a man came to me who was nearly dead. He had taken iron and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the bloodiness of a boy of twenty and as full of vigor, vim and vitality as a young man. In fact, a young man he really was, notwithstanding his age. The secret, he said, was taking iron—Nuxated Iron. He had filled him with renewed life. At 30 he was in bad health; at 46 he was vigorous and nearly all right. Now at 50, after taking Nuxated Iron, he was a miracle of vitality and his face beaming with the buoyancy of youth. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it and as a consequence you become weak, pale and sickly looking. Just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following tests: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles, in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate, or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red

coloring matter in the blood, of her children, is also that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good; otherwise it may prove worse than useless. Many an athlete and prize fighter has won a great victory because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray; while many another has gone down in ignominious defeat simply for lack of iron."

Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital of New York City, said: "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance with fine, clear, remarkable and wonderfully effective remedy."

NOTE—Nuxated Iron, which is prescribed and recommended above by physicians on such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the other inexpensive iron products, it is easily assimilated, does not irritate the teeth, makes them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 on any charitable institution if they cannot take any man or woman under 40 who lacks iron, and in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by all good druggists.
